

# Community Update: West Toronto Railpath and the Kitchener Fourth Track

Metrolinx has a roadmap for this region, a plan for more connections. We're transforming the existing GO system to deliver a whole new rapid transit experience, making connections like never before. More transit is at the heart of everything we do. Adding a fourth track through Toronto (from Lansdowne to Dundas) on the Kitchener corridor is essential to improving service on that line, but construction will also allow for enhancements to the existing West Toronto Railpath in your community.

Please join Metrolinx and City of Toronto staff at an Open House on October 23 for the latest updates and information about the planned phasing of this work. Staff will be available to answer your questions, hear your feedback and share updated timelines.

The **Open House** starts at 6:00 p.m.

Wednesday, October 23, 2019  
George Chavalo Community Centre  
50 Sousa Mendes Street  
Toronto
