

# TRANSFORMING TRANSIT IN YOUR AREA

## ONTARIO LINE TRANSIT PROJECT

Information as of 3 February, 2020

### Investigative work on Mill Street and Berkeley Street

Beginning mid-February, 2020

#### What is the Ontario Line Transit Project?

The Ontario Line will bring nearly 16 kilometres of much-needed subway service to the City of Toronto, making it faster and easier for hundreds of thousands of people to get where they need to be each day. Initial plans for the line include 15 potential stations, including six interchange stations and 17 new connections to GO train lines and existing subway and streetcar lines.

#### What is happening?

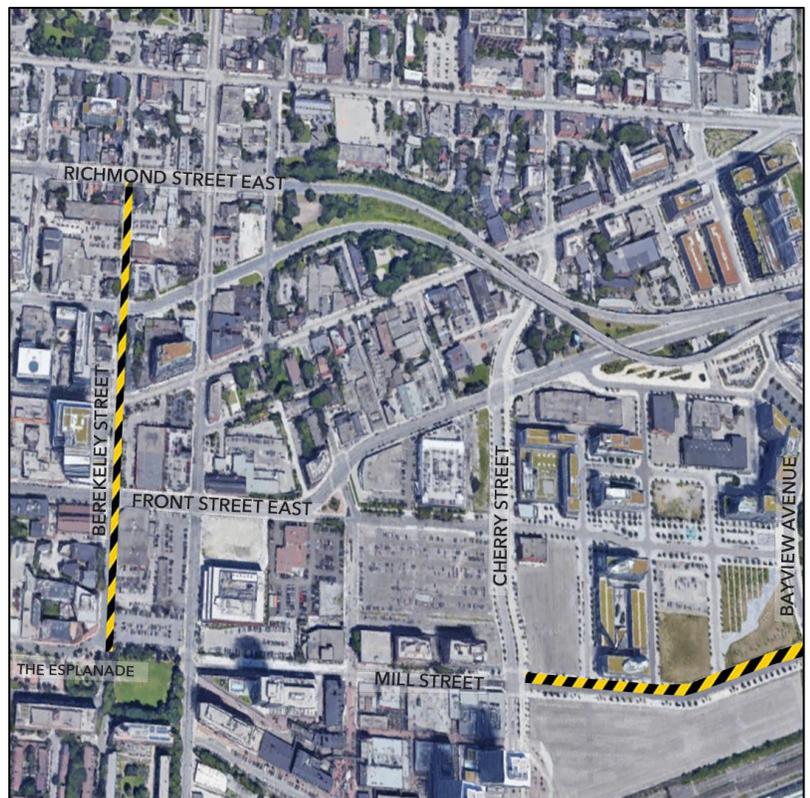

To advance the Ontario Line project, Metrolinx will be evaluating the underground conditions of the area where the subway will be built. **Work is done by a vehicle that moves slowly on the road pulling a chain of devices, linked together by a metal cable. Occasionally, the vehicle will stop and a hammer is used to generate a signal.** This work must be done to determine the approach for the construction of this important project, and will support the creation of foundation designs and other structural plans.

#### What to expect

- During investigation hours, lane reductions may be required along Berkeley Street (between Richmond Street East and The Esplanade) and Mill Street (between Cherry Street and Bayview Avenue)
- Traffic delays are expected.
- Every effort will be made to minimize disruptions.
- Access to properties will be maintained at all times through at least one driveway.
- Residents and businesses near the work site can expect to hear some noise caused by the truck driving by and occasional hammering, similar to regular ambient noise.
- Please take care when walking near work areas. Watch for additional signs directing pedestrians as detours may be required.

#### Timing

- Work is scheduled to start in mid-February and overall work will last for approximately one week.
- Work will occur overnight between 10 p.m. to 6 a.m., Monday to Friday.
- Work could be rescheduled and delayed due to weather conditions or any unforeseen circumstances.
